Objective: I am looking to gain hands on research experience in neuroscience and to be a contributing member of a lab. I am particularly interested in learning and memory research and hope to get a better understanding of how research into learning and member is conducted.

Education

Boston University

Major: Neuroscience

GPA: 3.4

Expected graduation date: May 2019

Relevant coursework

- **NE 101:** Foundation of neuroscience
- **NE 204:** Computational neuroscience
- **NE 205:** Neuroanatomy
- **CHEM 204/5:** Organic chemistry

Work experience

Tutor.com

July 2018 - present

Tutor 2

- Tutored elementary students online in math and science

GameStop

Aug 2017 - Sept 2018

Game Advisor

- Helping customers in store, cashier, inventory tracking

SKILLS

Experience with Excel, Python, and SPSS

Conducted chemistry experiments for course lab work

Leadership

President of BU video game club

Treasurer BU undergrad neuro club

Volunteering

Undergrad Neuro club outreach

- Visiting elementary schools to teach neuroscience

Awards
